## Fortune favors the bolds...

« Fortune », is maybe a little strong. But « success » is for sure a word we are proud to assume and it's a commitment to.... our sponsors. For they are the bolds! Let's make the presentations.

### **Volvo Car France**

As a key player, the « tricolor » management of Volvo is strongly supporting us. Developing its models range with a premium positioning, constantly investing in security and the protection of the environment, it could be easy for the company to forget its roots. But our main partner knows how great are attachment and passion of the Volvo classic owners, and he doesn't want to weaken the link with their favorite brand. Tack !

### **Restauval**

In 2010 they really treated us and in 2018, their *verrines* triumphed over a searing heat (the VCR participants can tell you!). They knew how invite Sweden in our plates even better than a Chef coming directly from Stockholm. Restauval employs 550 people able to provide more than 30.000 meals per day in 165 restaurants. Of course, they know how to meet our northern culinary requirements. Enjoy your meal !

### **Spirit of Sweden**

A true passion : Scandinavia. A strong goal: promoting the Swedish craftsmen and their productions. A promise: quality. A faithful companion of the Viking Classic, the brand offers so specific products that... you can't find them in any shop: textiles, decorations, photos, goodies... Our crushes: a handmade enamelled moose and a pair of 850 BTCC socks.

### **Château de Fère-en-Tardenois**

Spectacular... that is the only word you can think of when this outstanding site reveals its unique beauty. A preserved environment on 70 hectares, a 5-stars hotel, member of the prestigious international « Small and Luxury Hotels of the World »... and the amazing ruins of this fortress which tell a thousand-years of our history ! There is still a chapter to be written: the VCA's one...

### Manauto

On the model of a rocket man, it's probably the species « car man » : Manuel, the Friend-garage owner from Rocheserviere in Vendée, is a part of. Even if qualifying him as a « car man » is somewhat strange considering the baseline of his company : “ you're not searching for a car but for a Volvo car...”. But « Friend » is totally true and in line with his personality. Being all heart, the head in the stars and the foot on the gas, he has been involved as an early partner since the first VCA.

### Rétro Assurances

THE insurance office specialized in classic cars which origin goes back to 1911! All coverage formulas, assistance and expertise are provided with a great smile... exactly 47 smiles you can discover on the website of this insurer who maintains a family atmosphere. Roland Therond used to be a competitor (and he is still one !) when he « created » the classic car insurance contract, around 40 years ago. Nowadays, the company supports Retromobile, Reims, Avignon and Lyon classic cars meetings...and ours ! With its logo which colors are the Swedish flag ones, it was written that our paths would cross one day....

### Jakob's Magazine

This is the reconciliation of classic and modern cars ! Capable to gather all our Volvo cars whatever their model and range, we may even say it's a miracle in the magazines world. In its high-level publication, Paul Malfrout knows how to unite all the generations of the brand, using a very ambitious iconographic approach. Official snapshots and « homemade » shootings make us travel from the 30's to the nineties, underlined by original and documented texts (in French, English and Dutch). The subscription is quite mandatory for every self-respecting fan...

### Qlik

Qlik is a 50.000 clients international group, specialized in data processing softwares and analytics... with a fully new approach: gathering the *whole* entity data (companies, NGOs...), and make them available for *all* employees to bring analytics into *every* decision through a platform extended to *every* team, process, application and device. It is a very attractive philosophy all the more so that the company is active towards non-profit organizations and she is ranged by Fast Company amongst the 10 most innovative firms for the collective good.

## Skandix

With a "mileage" over 25 years, it in no way reduces the spread... Skandix has proposed its expertise and its Volvo and Saab parts since 1994 : 34.000 articles amongst which 97% are immediately available. This specialist stores, if needed manufactures, and delivers around the world from Lutter, its facility near Hanover (Germany), the spare parts which allow our cars to keep their eternal youth. From the Duett to the XC90 model cars.
